// About Me

I am a hands-on software engineer, passionate about code quality, design and innovation. I am known to be a proactive learner, with great planning and negotiation skills and the capability of successfully handling multiple tasks simultaneously

// Skills

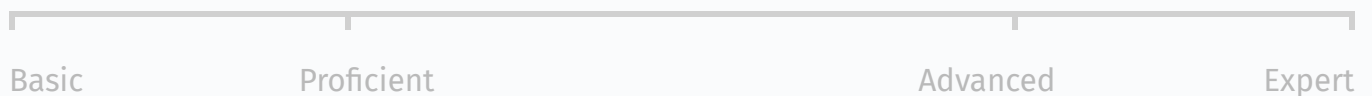

Back-End (*Ruby on Rails • TypeScript • NodeJS • Golang • Java*)

Tools (*Git • DevOps • SQL • NoSQL*)

Front-End (*ReactJS • AngularJS • JQuery*)

Soft Skills (*Scrum • Kanban • Management • Negociation*)

Mobile (*Swift • Objective-C • C# • Android*)

// Languages

- ★★★★★ Portuguese
- ★★★★☆ English
- ★★★☆☆ French

// Professional Experiences

I.Systems

2018-07 - current

Tech Lead

Technical leadership of systems for advanced process control and business intelligence for industries, involving both desktop and cloud applications. Development in Go and TypeScript and deployment in AWS

HE:Labs

2017-07 - 2018-07

Web Developer

Work as web developer and project manager focused at delivering full production-ready systems developed from beginning to end using Ruby on Rails, Elasticsearch, MongoDB and PostgreSQL

CoffeeBean Tech

2015-07 - 2017-07

Software Engineer

Engaged on developing REST APIs, business intelligence tools, Social Marketing engines and iOS applications for the Social-ID Marketing Platform. Coding mostly in Ruby (Rails), JavaScript (AngularJS) and Objective-C (iOS)

Chefia

2014-06 - 2015-07

Co-founder and Developer

We have created Chefia, a set of tools to improve restaurants' customer service and overall clients' experience through a complete overhaul of how orders are dealt with, using Ruby, Swift, Objective-C and Swift

// Education

University of Campinas

2009-01 - 2015-01

Graduate of University of Campinas, with participation in exchange programs in France (ENSIIE) and in Australia (ANU)

Apple and Instituto Eldorado

2013-06 - 2014-07

Completed Apple-run course on iOS development, first of its type in Brazil. Course counted with classes on programming, design and business

ENSIIE

2011-06 - 2012-06

12 months as a Masters student at ENSIIE with full scholarship. Studies focused in the fields of artificial intelligence and virtual reality

ANU - Australian National University

2012-06 - 2013-06

12 months as a Masters student at ANU with full scholarship. Studies focused on project management and software engineering
